

CONGESTION SURCHARGE FLOATER

Valid as of 01.01.2022

The zones white (no congestion), light (mild congestion), medium (congestion) and dark (heavy congestion) are assigned per Post Code, based on the congestion map published annually by the FEDRO (Federal Roads Office)¹.

The zones are valid for the current calendar year, the congestion level and the congestion zone matrix is adjusted based on the monthly measured congestion volume.

Congestion Zone Matrix

From / To		Zone 1	Zone 2	Zone 3	
		0.00%	5.00%	5.50%	6.00%
Zone 1		5.00%	5.50%	6.00%	6.50%
Zone 2		5.50%	6.00%	6.50%	7.00%
Zone 3		6.00%	6.50%	7.00%	7.50%

Calculation of congestion surcharge

The calculation of the congestion surcharge is based on the monthly congestion hours on the Swiss national roads, published by ASTAG². The congestion level results from the sum of the congestion hours of the last 12 months.

The congestion surcharge is applied to the net freight price according to the congestion zone matrix.

Months	Congestion hours per month	last 12 months
02.2021	1'015h	31'670h
03.2021	1'625h	
04.2021	1'680h	
05.2021	2'320h	
06.2021	2'860h	
07.2021	3'632h	
08.2021	3'742h	
09.2021	4'460h	
10.2021	3'844h	
11.2021	3'228h	
12.2021	2'028h	
01.2022	1'235h	
Valid as of: 02.2022		Level 5
